

ONE ON EPSILON

Nurturing Mathematical Curiosity

We are an EdTech startup with a mission to deliver accessible mathematics content that drives curiosity and nurtures parent-teacher-student connections. For this, try our Epsilon Stream platform and Curious Epsilon blog posts.

Join a community of educators across the globe that are following our content and using Epsilon Stream.

OUR VISION

A world where mathematical curiosity is cultivated through exploration.

OUR MISSION

Delivering engaging curated mathematics through innovative software and content.

OUR VALUES

- Everyone is capable
- Anyone can build a mathematical mindset
- Learn the “how” while understanding the “why”
- Joyful mathematics
- Global mathematics
- A team of diverse educators creates outstanding products

Watch, Play And Explore Mathematics

$$\sum_{k=1}^{\infty} \frac{1}{k}$$

$$\sqrt{-1}$$

Epsilon Stream:

Are you exploring mathematics and want to know 'how'? Or maybe you want to understand 'why'? The web has some superb free resources, but where? How to quickly find the answers that are right for you? Go with Epsilon Stream and stay hooked on mathematics.

$$\sqrt{-1}$$

$$e^{\pi i} + 1$$

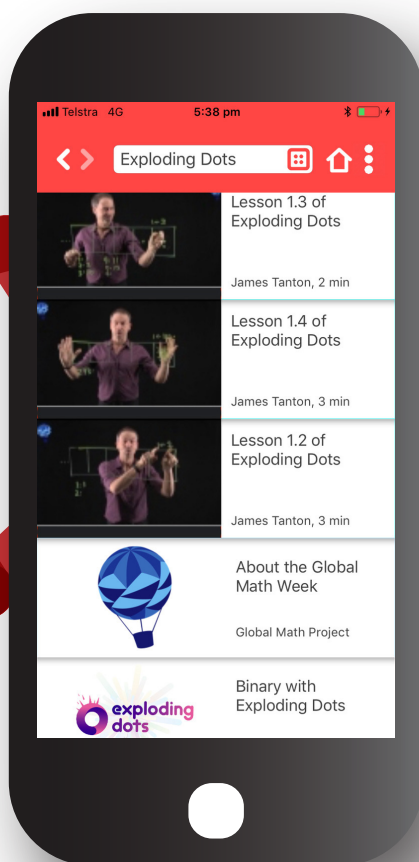

$$e^{\pi i} + 1$$

Our Data Analysis:

We conduct an on-going survey of YouTube mathematics usage. For the month of September 2018, we estimate that in the English language alone, there were 4.63 million hours of mathematics views. Yes, that is 4,630,000 hours of mathematics videos educating, engaging and exploring audiences! This is equivalent to about 5.5 million people, each watching 12 minutes of mathematics per week!

Our Content Team:

Our team picks the best mathematics resources for you. We are parents, educators and mathematics researchers. We breathe mathematics, live parenting and thrive on curiosity.
